

INTEGRATING MANAGEMENT CONSULTING SERVICES AND TECHNOLOGY TO IMPROVE OPERATIONS, STREAMLINE COMMUNICATIONS, REDUCE RISK AND SAVE MONEY.

Consulting firms develop recommendations to help companies improve business processes. Software companies provide technology to automate business processes. Solution Foundry provides an integrated package. Our team combines experience-based insight, software solutions, expert implementation and training to deliver personalized solutions for our customers.

MANAGEMENT CONSULTING SERVICES

Looking to operate faster and better? Get the insights you need to make it happen.

Solution Foundry's in-depth experience in the private and public sectors can help you identify opportunities to streamline work processes and improve performance. Our consulting services include:

- » Management system design, implementation and evaluation
- » Business process improvement
- » Information management assessment, planning and optimization
- » Information technology planning, development and implementation

SHAREPOINT CONSULTING, CUSTOMIZATION AND TRAINING

Teamwork is essential to your organization's success. SharePoint makes it easier.

SharePoint consulting and implementation services make organizations more efficient, help personnel work together more effectively, and improve business results.

Solution Foundry unlocks Microsoft SharePoint's untapped capabilities. Our services cover all phases of SharePoint development and implementation, creating highly customized business intelligence and management tools for:

- » Business management
- » Data collection and reporting
- » Document and record management
- » Team collaboration

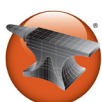

PROJECT MANAGEMENT SOLUTIONS

You have a plan. Keep it on track.

Solution Foundry offers an array of services to help you implement and manage your project from start to finish, including:

- » Development of project management systems to provide a consistent approach to completing projects on time and within budget
- » Data-driven dashboards and key performance indicators to measure project efficiency and effectiveness
- » Training to help project managers and team members perform their roles more effectively

SOLUTION FOUNDRY OFFERINGS

DASHBOARDS, METRICS AND REPORTING

You can't manage it if you don't measure it. Know what's happening at a glance.

Solution Foundry's dashboards, metrics and reporting tools help you access, display and analyze real-time data for faster, better decisions that drive performance.

These include:

- » Graphical dashboards and reporting tools
- » Data roll-ups and drill downs
- » Custom and off-the-shelf solutions

TRAINING, OUTREACH AND COMMUNICATION

You have a message. Make sure it gets heard.

Solution Foundry combines expertise in training program development, graphic design, and multi-media technology for all aspects of training, outreach and communication.

We can help you:

- » Target your audience
- » Craft your message
- » Develop a comprehensive communication program for internal or external company needs
- » Track training effectiveness

BUSINESS PROCESS AUTOMATION SOFTWARE

Slowed down by disconnected processes, organization stovepipes or information silos? Our software solutions eliminate barriers.

Solution Foundry provides the information management framework you need to make key tasks and functions faster, more accurate and less costly. We offer both off-the-shelf and custom software solutions that are easy to

implement, user-friendly and require no significant investment in new hardware or software platforms.

The foundation of our business process automation software is the EMSolution® suite of management software applications. EMSolution easily integrates with existing systems and databases. The EMSolution suite includes the following modules:

- » **EMSolution® Tracker**, which automates tracking, recording and management of action items and tasks such as inspections, corrective actions and training events.
- » **EMSolution Incident Manager**, which includes reporting, investigation and management of accidents and incidents.
- » **EMSolution Program Manager**, which automates management of critical business elements like documents, goals, projects and financial tracking.
- » **EMSolution NEPA Manager**, which automates and accelerates review of proposed projects and actions that may trigger new compliance requirements or other changes to your organizations' processes.

Solution Foundry can adapt the capabilities of EMSolution to automate similar processes for other business functions.
